- **Agile & Soft Skills:** Scrum Ceremonies (Sprint Planning, Retrospectives), Cross-Functional Collaboration, Technical Problem-Solving

PROFESSIONAL EXPERIENCE

ACCENTURE | Application Development Analyst (Senior Role) *Jan 2023 – Present | Hyderabad, India*

- Architected scalable .NET Core microservices executing core business logic across high-volume enterprise production environments handling 10k+ daily requests.
- Containerized microservices using Docker and managed deployments on Kubernetes (Azure AKS) to ensure 99.9% application availability.
- Implemented xUnit and Moq unit testing suites, achieving 85% code coverage and eliminating regression defects before deployment.
- Migrated legacy monolithic applications to Angular and .NET Core RESTful APIs, improving application scalability and response speed by 35%.
- Refactored complex SQL queries and stored procedures, reducing API data retrieval times by 60% across 15+ database endpoints.
- Configured Azure DevOps CI/CD pipelines and participated in Scrum bi-weekly release cycles, reducing deployment configuration errors by 25%.

ACCENTURE | Application Development Associate *Sep 2021 – Dec 2022 | Hyderabad, India*

- Developed Angular UI components and .NET backend modules, collaborating with cross-functional teams to resolve 50+ production issues.
- Created Python scripts to automate routine JIRA work hour submissions, reducing manual entry time by 90% and improving log accuracy.
- Executed NUnit automated tests and fixed cross-browser frontend bugs, improving overall client-side user experience across devices.

KEY PROJECTS

- [AI-Powered Personal Learning Tutor](#)  (*Angular, .NET, Docker, OpenAI API, Firebase*): Built a Gen-AI learning platform generating personalized technical study roadmaps, interactive chat assistance, and automated quiz evaluations.
- [EMI & Financial Management Suite](#)  (*Angular, .NET Web API, SQL Server*): Migrated manual Excel tracking into a database-backed web app managing small business ledgers, improving reporting accuracy by 35% across 200+ transactions.
- [AI Tools Navigator & Productivity App](#)  (*Angular, Python, Azure, Firebase Hosting*): Created a searchable AI tools directory web application with category filtering, dynamic theme switching, and Python workflow automation scripts.
